

## **Center #1: Creating a Math Padlet**

Watch the social media video on the wiki site located under the Padlet example. Then, design an open-ended question aligned to the standard that uses the content of the video.

1. Go to [www.padlet.com](http://www.padlet.com)
2. Register for an account, if you don't have one. Login with your account info.
3. Click the pink "Create new padlet" button.
4. Look to the right; click the icon on the bottom to modify your wall.
5. The basic info button is the most important. Choose the portrait that you want and type your question in the Title box. The Description box allows you to add additional information if you choose.
6. Click the wallpaper icon to change the background. You can upload your own photos or graphics to personalize your wallpaper.
7. Choose the layout.
8. Choose the privacy option you want.
9. The last step is the address. You can use the address provided when you click on the address icon or you can make it specific to your task.
